

IN THE BALKANS.

Francis Joseph Removes the
Roumelian Difficulty

IS A SPEECH ON SATURDAY.

The Attitude of Austria Touching
the Peace of Europe—Eng-
land's Position.

The Situation in the Balkans.

LONDON, October 24.—The week closes on the Continent upon an exceedingly interesting state of affairs. The situation in the Balkans is critical, and is engaging the attention of all European statesmen, the majority of them feel that the settlement of the imbroglio raised by Prince Alexander is not effected, the great powers will be drawn into a dangerous clash by their conflicting interests. Dispatches to-day from Vienna and Constantinople are significant and somewhat contradictory. From the Austrian capital comes the statement that all doubts as to the action of the signatory powers to the treaty of Berlin, respecting the Roumelian difficulty have been removed by a speech of Emperor Francis Joseph, to-day, at a meeting of the delegations. This body is a parliament, composed of 120 members, one-half of whom are chosen by Austria and the other half by Hungary. The jurisdiction of the delegations is limited to foreign affairs, and the war emperor, in addressing the delegations said:

The foreign relations of Austria are of the most friendly nature. The present meeting of the Emperors at Kremsier clearly indicated to the active and trustful nations of Russia, Germany and Austria are still continued, which is a very important fact at this juncture for the peace of Europe. The powers who join us will maintain the legal status of the Balkan States, guaranteed by the treaties of Berlin and San Stefano, as a basis for securing peace in the future. The unanimity of the powers on this point is an important guarantee of the success of a peaceful solution of the Roumelian question. The signers of the treaty of Berlin seek to restore the *status quo*, which was so unexpectedly violated by the Roumelian rising, endangering the peace and welfare of the people of the whole Balkan Territory. Europe renounced her respect for the treaties of San Stefano and Berlin by the confidence which she gave the Balkan States independent political existence. Austria's desire is to maintain peace among the nations and protect the interests of her monarchy. Bosnia and Herzegovina make steady progress in an industrial and economic sense and are able to pay their own administration.

The Emperor's speech means anything it means that Germany, Austria and Russia are united in a determination to secure the deposition of Prince Alexander, and complete the restoration of the state of affairs which existed in the Balkan States before the restoration of the Prince. The dispatches received this evening from Constantinople indicate that England will take a decided stand against the position announced for Germany, Austria and Russia by the Emperor Francis Joseph's private utterances. All the powers have accepted the Porte's invitation to attend the conference at the Turkish capital upon the Balkan question, and their representatives are all upon the ground. It is tonight stated unequivocally that the representative of England has been instructed by his government to make a motion in the conference in favor of maintaining the union of Bulgaria and Roumelia effected under Prince Alexander, and it is further declared by the representatives.

Devastating Prairie Fires.

FORT WORTH, TEX., October 24.—Reports reached here last night from Clarion, Donley County, and other points in Pan Handle of the most devastating prairie fires ever known in this State. It is believed that the number of acres burned over will approach 500,000. The country in which the fire is raging extends from the Canadian River, 100 miles south. It is impossible, as yet, to give any idea of the individual losses. In some places the cowboys were obliged to ride into the lakes to save themselves. Judge Brown of Clarion, was severely burned while endeavoring to save his summer camp of millet, which was destroyed. Fully one-fourth of his range was also destroyed.

Will Stand on the Platform.

NEW YORK, October 24.—A Washington special to the Post says: The President stated to a gentleman whom he called into consultation yesterday that he will rigidly adhere to his civil service reform policy, whatever may happen in or out of his party, and that he is confident that ultimately the country will approve his course. Of one thing he is sure, that neither political party can openly espouse any policy which is antagonistic to the civil service ideas. Cleveland intends, in the regulation of the Civil Service Commission, which will probably be made as competent persons can be found, to make his purpose clear in this matter.

"Clear the Way!"

Complaint is made that the streets of the city are so clogged with dirt and garbage that it is difficult to pass along. This is bad business, but not half so bad as when the ducts and passages in the human system become blocked and clogged with impurities, and the liver has no chance to do its work of cleansing the blood. But even this state of affairs yields to Brown's Iron Bitters, the great family tonic, which you can get at any drug store for a dollar.

Irish National League.

CHICAGO, October 24.—The following communication was issued to-day:

IRISH NATIONAL LEAGUE OF AMERICA,
OFFICE OF PRESIDENT AND SECRETARY,
LINCOLN, N.E., OCTOBER 24, 1885.

To Officers and Members of Branches:—Pursuant to a resolution of the National Committee of the League, passed at a meeting held in Chicago in August last, the executive has been in communication with Mr. Parnell with a view to fixing a date for our National Convention, that would suit Mr. Parnell's convenience and that of such other delegates as may be sent over to represent the home organization.

We now have the pleasure to inform you that the third annual convention of the Irish National Land League of America is to be held in the Central Music Hall in Chicago, on Wednesday and Thursday, January 20 and 21, 1886, and will be attended by Mr. Parnell and a strong delegation of his colleagues. We earnestly trust that every branch of the League will be fully represented thereat. We are approaching a most momentous crisis in a long struggle for Ireland's national rights, and no man or woman of Irish birth or Irish blood, no true lover of liberty—who feels a sympathy for their oppressed kindred, or love for the dear old mother land, should fail to lend a helping hand to secure that victory, which seems now on the very eve of accomplishment. Our people at home are manfully doing their part, despite every kind of coercion and terrorism. Let us do ours, and show England that the bold and manly, yet wise and prudent, policy of Parnell commands the universal and hearty approval and support of the Irish race at home and abroad. All branches and societies affiliated with the league that have subscribed regular dues for the current term, or have contributed to the parliamentary fund a sum equivalent to the amount of dues, shall be entitled to a representation and the basis of the representation shall be as follows:

One delegate for every 50 members in good standing; provided, however, that in the country districts where the number of 50 members cannot be easily reached, any number from 25 to 50 shall be entitled to one delegate. As the time is short, let our action be prompt and effective. Let us make the convention a credit to our race and a message of fresh hope, courage and material support to our kindred in Ireland in their desperate struggle against oppression.

(Signed) PATRICK EGAN, President.
CHARLES O'REILLY, Treasurer.
ROGER WALSH, Secretary.

The Ohio Muddle.

CINCINNATI, October 24.—The official count of Hamilton County has been completed and the papers sent to the Secretary of State. The certificates of election were issued yesterday, though it was not generally known until this afternoon. Suits have been brought by the Republican candidates for the House of Representatives to restrain the clerk from issuing certificates to the Democratic candidates. The claim is made that certificates issued before the count is declared—that is, signed and deposited with the clerk—are void, and that these certificates were issued before the additions were completed, which alone could determine who were elected.

Will Make Concessions.

ST. PAUL, October 24.—General Manager Oakes, of the Northern Pacific, returned from the west to-day. He said he received a telegram this morning from General Manager Towne, of the Southern Pacific, stating that he couldn't be present at the coming meeting of the association in Chicago on November 3d. Mr. Oakes expressed his positive conviction of an amicable settlement of all the differences at that meeting. Both sides, he thinks, will make concessions.

Arb Wins.

SAN FRANCISCO, October 24.—There was a large attendance to-day at the Bay District Park, to witness the great race for \$1,000 a side between Arb and Antee. The former was the favorite, and won in three straight heats. Time, 2:18½, 2:20½, and 2:20½.

Lord Chesterfield, the pink of politeness in his day, said that a true gentleman should be always *suaviter in modo, fortiter in re*, which means mild in manner, strong in action. This is precisely the character of Ayer's Cathartic Pill. Nothing operates so mildly and yet so powerfully in removing disease.

Hanlan-Teemer.

ALBANY, October 24.—Probably 10,000 persons witnessed the single scull race for \$1,000 a side at Pleasant Island this afternoon, between Edward Hanlan, of Toronto, and John H. Teemer, of McKeesport, Pa. The weather and water were nearly perfect. There was a three-foot freshet in the river, however, which rendered it hard work for the rowers. The race was three miles with turn. In the betting Hanlan was the hot favorite, and many private wagers were laid at odds of \$100 to \$50 and \$50 on him. In the pools sold in the island just before the start, Hanlan sold first choice at \$50 to \$20 and \$30 even. After Teemer had won the toss for position Teemer selected the inside position, which was a considerable advantage. At 4:30 p.m. the men were ordered out by the referee, James F. Ormond, of Boston. At seven minutes before 5 the word was given. Both men were in fine condition. Hanlan got a trifle the best of the start, rowing 38 to Teemer's 34 stroke to the minute. An eighth of a mile from the start Hanlan had the nose of his boat to the front, but was glancing nervously over at his rival, as though he feared him. The race was decided before the scullers had gone half a mile. Soon after leaving the quarter-mile point, Teemer, by grand work, drew up on his rival and took the lead, which he never afterwards surrendered. Three-quarters of a mile from the start Teemer, and was taking his wash. Teemer increased his lead to the stake boat, which he reached three or four lengths in advance. He turned in 11:32 1-5 and Hanlan eleven seconds later. Hanlan struck the buoy lightly in turning and gave up the contest. Teemer rowed leisurely home, stopping twice while opposite the island, to throw kisses to the spectators and dip up water with his hands. He was wildly cheered as he passed the island. Hanlan rowed down fifteen minutes later. He acknowledged that he was fairly beaten by a better man, and had no excuse to make. The official time was 21:13. A few minutes after Hanlan had repaired to his quarters, an Associated Press reporter called to see him, and propounded the question:

"Mr. Hanlan, what do you think of Teemer now?"

Hanlan, looking up, betrayed signs of unusual emotion, as he said: "I am glad to be defeated by the man like Teemer, but I don't like the idea of falling out of my boat."

Hanlan's shell, when it fouled the stake boat, upset and the oarsman was thrown into the water. He was rescued by the people in the judge's boat, who righted it and replaced Hanlan in it. Hanlan then rowed down to the finishing point. Hanlan says the collision with the stake boat was caused by a strong current.

"What would have been the result had you steered safely?"

"Opinions and results differed," he replied; "I think I could have won on the home stretch."

Teemer, in response to repeated calls, mounted the roof of his boat-house and said: "Gentlemen, I rowed this race to win, and have done so. I shall endeavor to do likewise hereafter; that is all I have to say."

A very large amount of money was won and lost on the race, and the Pittsburgers, who were here in full force, Hanlan says the collision with the stake boat was caused by a strong current.

THE NATIONAL GAME.

The St. Louis Browns' Champion of
the World.

CINCINNATI, October 24.—The game to-day between the St. Louis (Browns) champions of the American Association and Chicago, champions of the National League, was the decisive one in the series between these clubs for the championship of the world and resulted in an easy victory for the St. Louis team. It was Clarkson's day to pitch, but he appeared on the grounds five minutes late and Captain Anson ordered McCormick, who pitched yesterday, into the box. Two hits were made off McCormick yesterday. To-day he was hit for a total of sixteen bases, and this with the miserable fielding of the Chicagoes decided the game. The Chicagoes took a lead of two runs in the first inning on hits by Sunday and Kelly, and an error of Barkley. In the third inning Welsh made a three-bagger and crossed the plate through Dalrymple's poor fielding. Barkley and Cornisky made hits and Barkley scored while Cornisky was forced out by Robinson; Robinson stole second and came home on a passed ball. The St. Louis team won in the fourth inning by hitting McCormick safely five times. The fielding of the league champions in this inning was the worst seen here for some time. Anson made two bad muffs, Williamson a wild throw, and Dalrymple a wild throw, and Flint, the catcher, had two passed balls. The result was six runs for the St. Louis team, only two of which were earned. In the fifth inning the Chicagoes made two unearned runs, but they had no chance to overcome the lead of their opponents, and the game thereafter was devoid of interest. The attendance was 1,300. Score—St. Louis 13, Chicago 4.

SHERMAN SERENADED.

And Responds With a Speech on
the Parity of the Ballot.

WASHINGTON, October 24.—Senator John Sherman was to-night tendered a serenade by his friends in this city. The Marine Band furnished the music for the occasion, and a large crowd of persons listened to the speeches.

Senator Sherman was introduced by Ben Butterworth, and spoke for half an hour. The purity of the ballot was the principal theme of his discourse. He declared that every national election since 1828 had been tainted with fraud and terror, and asserted that last year, by an unlawful combination and fraud, Grover Cleveland had been elected President of the United States, when, if there had been a fair vote, and a fair count, James G. Blaine would have been elected. The speaker dwelt at some length on the recent election in Ohio, and charged the Democrats with perpetrating gross frauds against the purity of the ballot. He believed that Congress should pass a wise election law to govern the election of members of Congress and Presidential elections, and if such a measure failed to protect the negroes in their right of suffrage, then the Republican party would take care the Southern States were not allowed a representation based on their negro citizens.

The Navy Yard.

WASHINGTON, October 25.—Secretary Whitney has addressed a communication to the commandants of the navy yards at New York, Portsmouth, Norfolk, and Mare Island, requesting reports from the heads in the bureaus at the yards upon the results of the appointment of a new foreman and the organizing of new forces.

The Secretary also invites commandants to make such observations as they may desire with reference to the efficiency of new foremen, with views to determining whether in any case mistakes have been made in the selection. The point upon which information is particularly desired is whether any of the present foremen have constituted men not good workmen and constituted an inefficient force, or have appeared to be governed by political considerations rather than the interest of the yard.

Mexican Matters.

MEXICO, via Galveston, October 24.—The renewed agitation of the tariff question has had the effect of making the merchants careful to keep importations down to bare necessities. A committee of the Chamber of Commerce has under consideration a plan for the raising of the tariff in a manner to effect the gradual reduction of duties. The government is considering a plan for the taxing of rural property, a measure which would tend to enforce sales of land now held in immense estates. This the government hopes to effect and then enter upon a systematic plan for colonization.

Everything Quiet.

WASHINGTON, October 24.—A report has been received by the Secretary of the Navy from Rear Admiral McCauley, at Panama, stating that everything is quiet there. Work on the canal is at a standstill at the Pacific end, but at the other end, for a distance of three miles from Colon one-half of the depth and less than the width of the cutting has been excavated.

Surplus Wheat.

PORTLAND, Oregon, October 24.—The amount of surplus wheat for export in Oregon and Washington was four hundred and seventy thousand tons, of this there were a hundred and forty thousand tons from Western Oregon and three hundred and thirty thousand tons in Eastern Oregon and Washington. These figures are only estimates, but the results so far show them to be conservative. The Oregon Railway & Navigation Company brought to Portland from Eastern Oregon and Washington Territory, between July 1st and September 30th, 74,000 tons. The receipts this month so far, are 30,000 and will reach 40,000 for the month. The Oregon Railway & Navigation people are firm in the belief they will bring down 400,000 tons before the first of next July. Should these figures be verified the surplus for the entire Northwest Coast will be 510,000 tons.

Estimates have been made from time to time of the quantity of wheat in California this year available for export to Europe. These estimates have ranged all the way from 600,000 to 1,300,000 short tons, including the carry over from last year. The Produce Exchange, in order to settle the matter, determined to have the official stock taken, something never before done at this time of the year. The printed report was issued this evening. It shows that on October 19th there were in the State 705,000 short tons. This includes 28,000 tons of Oregon wheat received here between July 1st and October 10th, also the wheat afloat in the harbor and the flour reduced to wheat, deducting as follows: Required for consumption and seed; 200,000 tons; export to China and Central American countries, 70,000; in carry over to next year 40,000. This would leave, including Oregon wheat, received up to October 10th, 395,000 short tons available for export to Europe.
